BP Products North America, Inc. - marine-sales@bp.com

The above suppliers supply LSFO in Las Minas, Panama. However, due to Chevron's bunker pipeline presently being out of service at their Terminal and as barges are not allowed to deliver bunkers at the particular berth, LSFO supply could not be supplied in Las Minas on this port call.

Therefore, we are forced to return to the North American ECA without LSFO. Our plan, in order to be in compliance for the North American ECA, is to take LSFO at the very first port or off-shore facility within the vessels passage plan to or into the North American ECA; at very first opportunity/availability.
